

An aerial photograph of Warwick Castle, a large stone fortress with multiple towers and battlements, situated on a hillside. The castle is surrounded by lush green trees and a well-maintained lawn. The word "Warwick" is written in a stylized, cursive font at the top center of the image.

Warwick

Warwick Castle is a large castle in Warwickshire, England. It is in Warwick. The castle was once the family home of the Earls of Warwick from 1088 to 1996. It's a famous castle in England.

Birds of Prey

- In the castle there are a couple of falconiers, tame eagles, vultures, owl eagles, falcons and kestrels.

An aerial photograph of a medieval castle. The castle features a central cylindrical tower, several smaller square towers, and a complex system of walls and ramparts. The castle is surrounded by lush green trees and a well-maintained lawn. The lighting suggests a bright, sunny day.

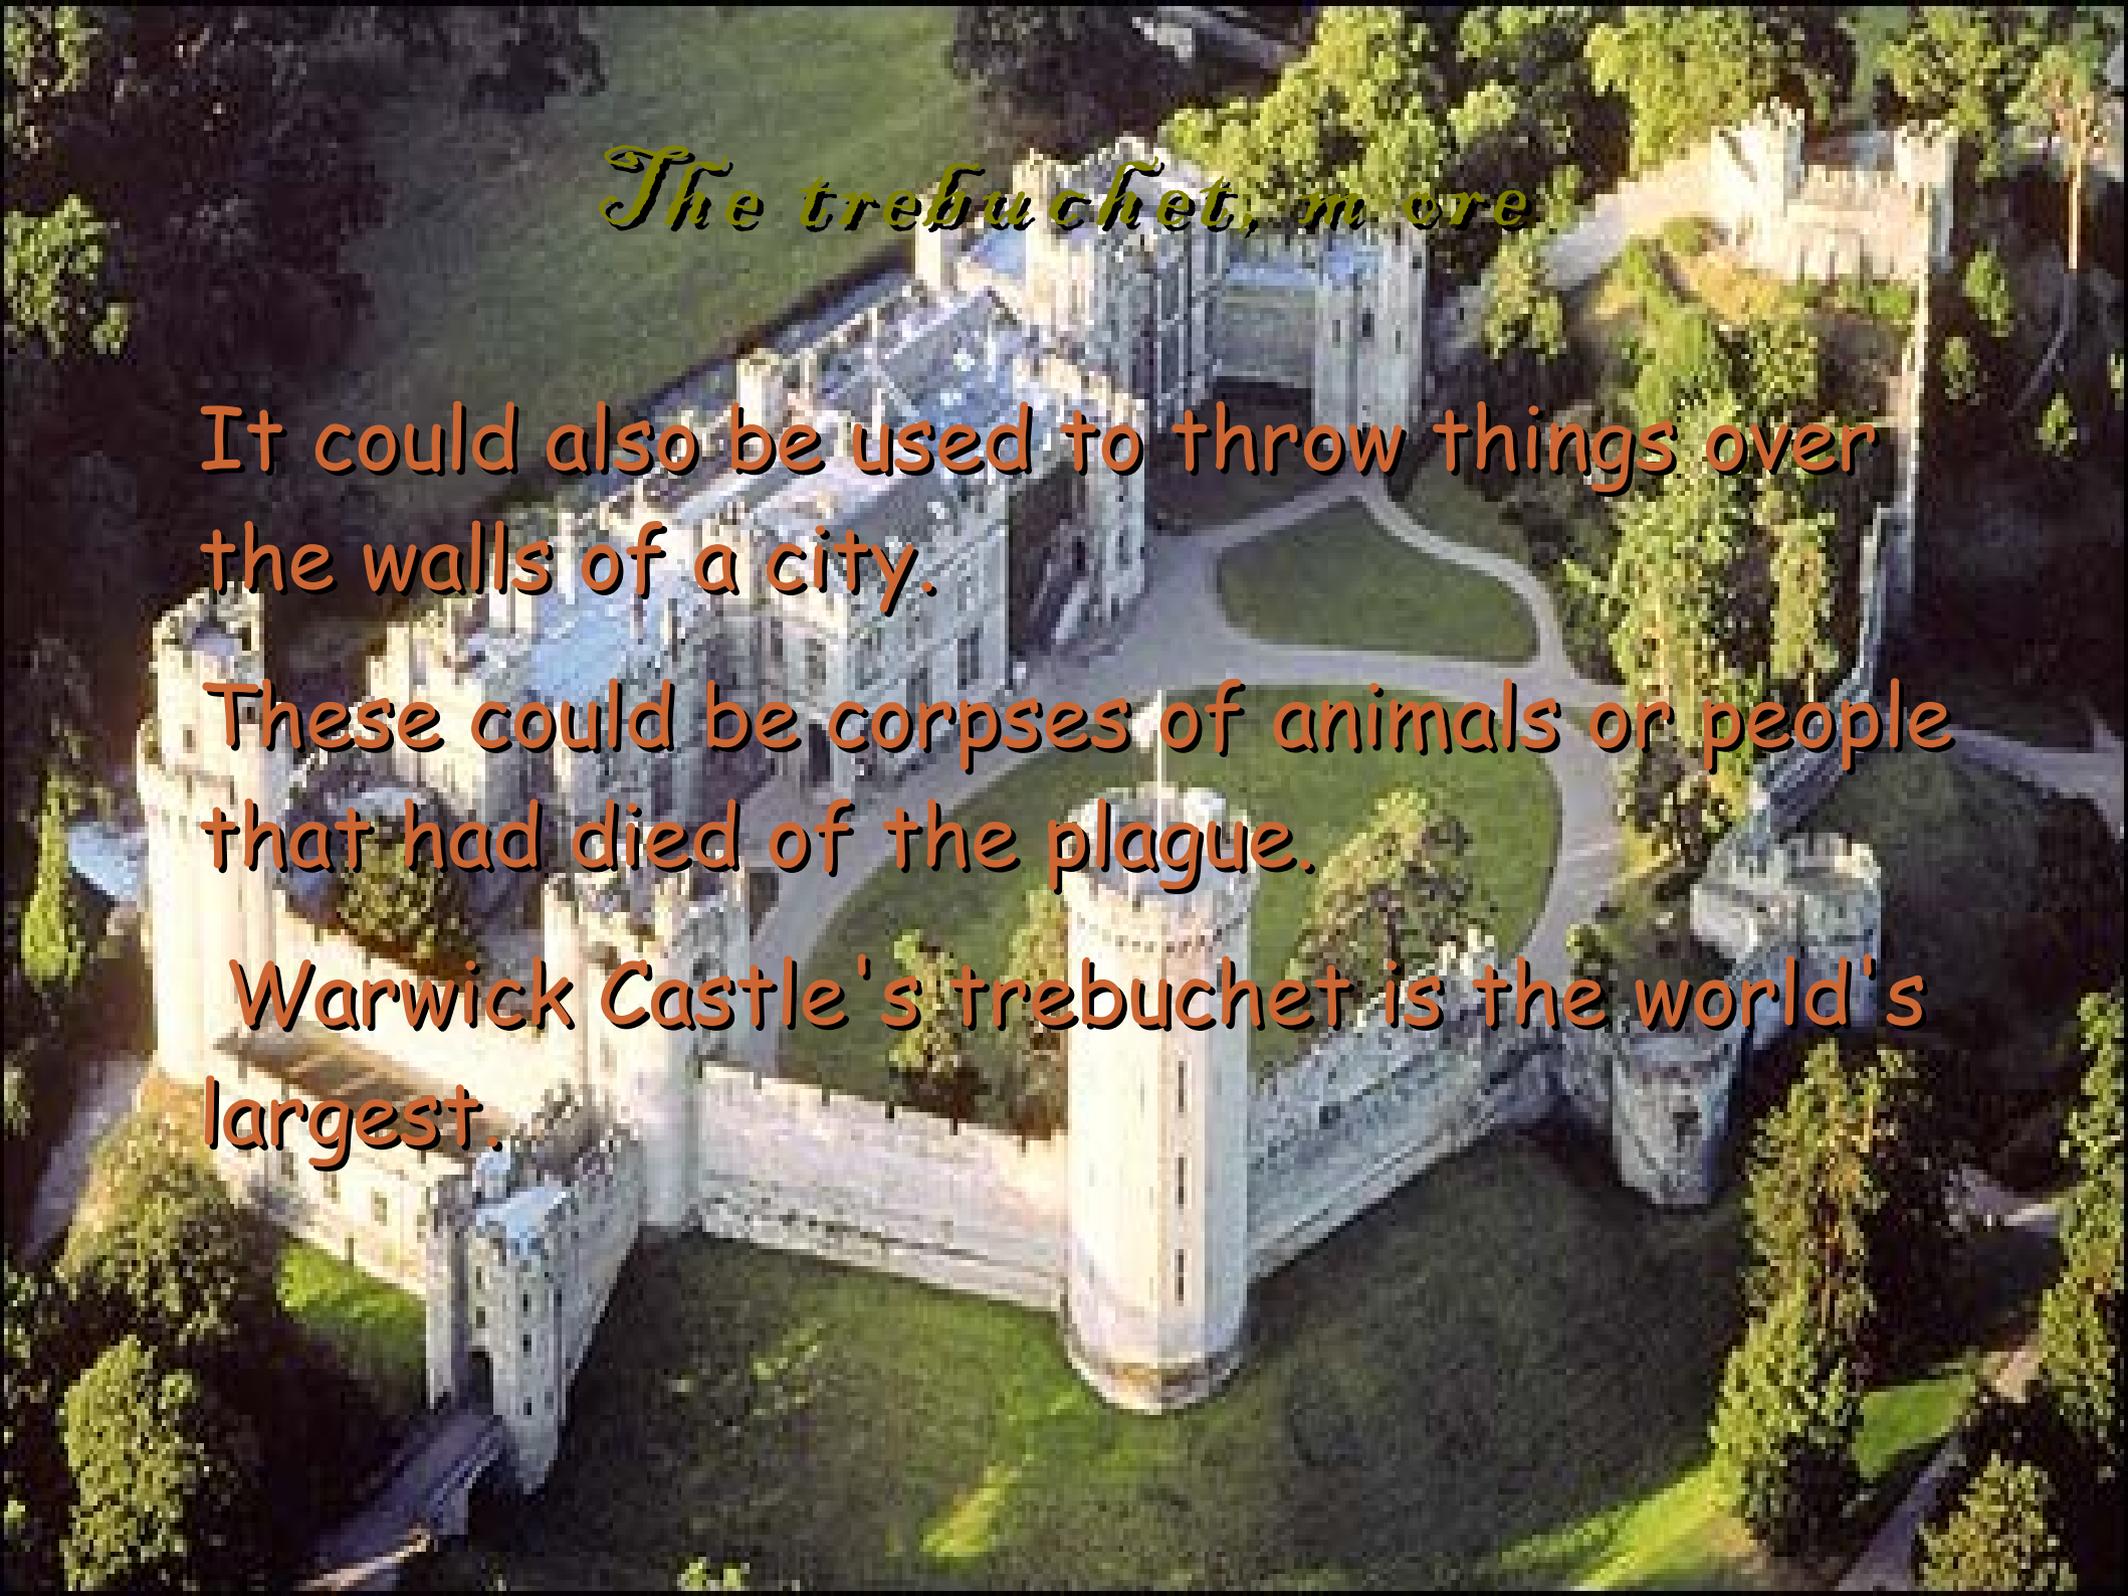

Trebuchet

Trebuchets were created in the Middle Ages to repel enemies.

The Trebuchet was a device used in wars and sieges in the Middle Ages.

It could be used to throw stones at ramparts,

Trying to break them down.

An aerial photograph of Warwick Castle, a large stone fortress with multiple towers and battlements. A prominent feature is a tall, cylindrical stone structure, the trebuchet, which is used for launching projectiles. The castle is surrounded by lush green trees and a well-maintained lawn. The text is overlaid on the image in a stylized, orange font.

The trebuchet, more

It could also be used to throw things over the walls of a city.

These could be corpses of animals or people that had died of the plague.

Warwick Castle's trebuchet is the world's largest.
